## Year 3 Key Maths objectives

Pupil:

| Key: |  | WT | EXS | GD |
| :---: | :---: | :---: | :---: | :---: |
| Children can demonstrate their methods for solving mathematical problems using concrete apparatus or pictorial representations. |  |  |  |  |
|  | Count from $\mathbf{0}$ in multiples of $\mathbf{5 0}$ and $\mathbf{1 0 0}$ and find $\mathbf{1 0}$ or $\mathbf{1 0 0}$ more or less than a given number. |  |  |  |
|  | Recognise the place value of each digit in a three-digit number (hundreds, tens, and ones) and compare and order numbers up to 1000 . |  |  |  |
|  | Read and write numbers up to 1000 in numerals and in words. |  |  |  |
|  | Add and subtract numbers mentally, including: a three-digit number and one; a three-digit number and tens: a three-digit number and hundreds. |  |  |  |
|  | Recall and use multiplication and division facts for the $\mathbf{3}, 4$ and 8 multiplication tables. |  |  |  |
|  | Estimate the answer to a calculation and use inverse operations to check answers for addition and subtraction. |  |  |  |
|  | Add and subtract numbers with up to three digits, using formal written methods of column addition and subtraction (introducing regrouping e.g. $91-73$ ). |  |  |  |
|  | Write, manipulate and calculate mathematical statements for multiplication and division, including for $\mathrm{TO} \times \mathrm{O}$ numbers, using mental and progressing to formal written methods. |  |  |  |
|  | Solve number \& word problems, including missing number problems, using number facts and more complex addition and subtraction. |  |  |  |
|  | Solve number \& word problems, including missing number problems, using number facts and more complex division and multiplication, for example $3 \times 4=12$ so $3 \times 40=120$. |  |  |  |
|  | Count up and down in tenths; recognise that tenths arise from dividing an object into 10 equal parts and in dividing one-digit numbers or quantities by 10 . |  |  |  |
|  | Recognise, find and write fractions of a discrete set of objects and use as numbers: unit fractions and non-unit fractions with small denominators. |  |  |  |
|  | Add and subtract fractions with the same denominator within one whole (for example $1 / 5+3 / 5=$ 4/5). |  |  |  |
|  | Compare and order unit fractions. Recognise and show using diagrams, equivalent fractions with small denominators. |  |  |  |
|  | Add and subtract amounts of money to give change, using both $£$ and p in practical contexts. |  |  |  |
|  | Measure, compare, add and subtract: lengths ( $\mathrm{m} / \mathrm{cm/mm}$ ); mass ( $\mathrm{kg} / \mathrm{g}$ ); volume/capacity ( $1 / \mathrm{ml}$ ). |  |  |  |
|  | To measure and work out the perimeter of simple 2-D shapes. |  |  |  |
|  | Tell and write the time to the nearest five minutes on an analogue clock. Comparing time in terms of seconds, minutes and hours; use vocabulary such as o'clock, a.m., p.m., morning, afternoon, noon and midnight. |  |  |  |
|  | Read and write Roman Numerals up to I-XII, including on a clock face. |  |  |  |
|  | Knows the number of seconds in a minute and the number of days in each month, year and leap year. |  |  |  |
|  | Compare durations of events [for example to calculate the time taken by particular events or tasks]. |  |  |  |
| 를$\stackrel{0}{0}$00 | Draw 2-D shapes and make 3-D shapes using modelling materials; recognise 3-D shapes in different orientations and describe them. |  |  |  |
|  | Recognise angles as a property of shape and can identify right angles (how many make a $1 / 2,3 / 4$ of a turn or complete turn); identify whether angles are greater than or less than a right angle. |  |  |  |
|  | Identify horizontal and vertical lines and pairs of perpendicular and parallel lines. |  |  |  |
| $\omega$ | Present data, interpret and solve questions using bar charts, pictograms and tables. |  |  |  |
